ABOUT ME

I am a Data Analyst, with over five years of experience in the Energy and Tech industries. I possess extensive experience in people and business analytics with proficiency in python, pandas, matplotlib, power Bi, excel, and all dialect of SQL. When I'm not generating insight from Big data, I'm writing poems, reading novels, watching football or socializing with friends.

SKILLS & ABILITIES

Python, pandas, SQL, Microsoft excel, power Bi, matplotlib.

I have excellent communication skills, ability to work independently and also with a team, ability to learn quickly, correctly and motivated, ability to present and portray ideas as well as convince others, good leadership skills, planning and collaboration

in heterogeneous groups, team-work oriented, creativity and passion for new solutions.

Social skills (Adaptable

and flexible; sociable; team work; work ethic) Good listener/Good communicator.

WORK EXPERIENCE

DATA ANALYST, KADUNA ELECTRICITY DISTRIBUTION COMPANY

2018 - 2022

At Kaduna electricity distribution company, I manage the company's database using SQL. I import, inspect, clean, transform, validate, and interpret collections of data with regard to the business goals of the company. I ensure that the data sources and repositories provide consistent and reliable data. I use Python language, its frameworks and other IT tools as demanded by the situation and the current data, to process and reprocess it. I prepare reports in the form of visualization such as graphs, and charts, using the matplotlib in jupyter notebook and Power Bi

DATA ANALYST, DIGITAL WEB ORACLE

2016 – 2018

I worked in the business intelligence unit, making insights from big data, making data-driven decisions and influencing the company's business decisions.
